

CREEPING RED FESCUE

High RPM Turf Quality

REV is a premium strong creeper that consistently earns top marks for quality. Its dark green color, fine leaf texture, and good summer and spring density contribute to REV's outstanding aesthetics. Its excellent no mowing performance and traffic tolerance offer suitability for natural and low-management applications. An impressive disease package completes this high-octane creeper, which includes, strong brown patch and dollar spot resistance.

Adaptation

Performing well in shade, low water and natural turf applications; REV is an excellent blend component with other improved fescues, bluegrasses and perennial ryegrasses.

Features

- Exceptional quality
- Top NTEP performer
- Dark green color
- Fine leaf texture
- Strong traffic tolerance

NTEP Mean Turfgrass Quality

Mean turfgrass quality ratings of strong Creeping Red Fescue cultivars grown in location performance (LPI) Group 1. 2017 data.
