

TALL FESCUE

Always on Target Across All Regions

Showdown has consistently demonstrated high quality turf performance across all regions. From the South East to the North Central and Transition areas, Showdown is the reliable choice for consistent turf quality. Aggressive seedling vigor, traffic and shade tolerance make it widely adapted for medium to lower maintenance regimes across a variety of conditions. Contributing to its consistency is an outstanding disease package including net blotch, pythium and NTEP winning brown patch resistance.

Features

- Consistent turf quality
- Widely adapted
