

TALL FESCUE

Trilogy is a blend of premium tall fescue varieties specifically developed to deliver outstanding turf characteristics: high quality turf, consistent performance, tolerance to adverse conditions (drought, salinity and traffic) and exceptional brown patch resistance. The complimentary turf characteristics of each tall fescue variety in this blend make Trilogy suitable for a wide range of growing conditions and superior performance.

TURF TYPE CHARACTERISTIC	FEATURES
High quality and density	Outstanding density and quality. Fine leaf texture and dark green color.
Superior performance in tough conditions	Proven performer in tough conditions: drought tolerant, salinity tolerant, traffic tolerant. Plus, strong seedling vigor that delivers rapid establishment.
Consistent turf quality	Consistent turf quality across all growing regions. Wide adaptation that outperforms in medium to low maintenance regimes.

Features

Blend of premium varieties

High turf quality

Widely adapted

Tolerates adverse conditions

Outstanding brown patch resistance
