STOCKADE BRAND
FORAGE PEAS

Stock-Up on Quality Forage

Selected for its smaller seed size and more vines per plant, Stockade Brand Forage Peas give growers significantly more pea plants per acre with increased biomass. Stockade has been selected for high protein and sugar content delivering outstanding feed value. The result is higher quality forage and more milk production. Stockade Brand Forage Peas have strong spring vigor making them ideal to use for establishing forages such as alfalfa.

Key Characteristics
Strong Vigor
Small Seed
More Vines
High Protein and Sugar
Improved Disease Resistance
