AN OUTSTANDING YIELD PERFORMER WITH CLUBROOT PROTECTION

## FEATURES

R-rated blackleg resistance plus 1<sup>st</sup> generation\* clubroot protection

The yield leader in the Clearfield® segment

Can be marketed under the Clearfield (non-GMO) canola premium programs

|               |  |
|---------------|--|
| Blackleg      | R - C                                      |
| Major Gene ID | Rlm3                                       |
| Clubroot      | R (1 <sup>st</sup> generation* resistance) |
| Standability  | Excellent                                  |
| Maturity      | Mid <sub>1</sub>                           |

### DISEASE MANAGEMENT RATING

R = Resistant

<sup>1</sup> Maturity ratings based on comparison to WCC/RRC check hybrids.

\* Next-generation resistance includes pathotypes covered by first generation resistance plus resistance to newer pathotypes such as 2B, 3A, 3D, and other prevalent pathotypes.

See reverse for comparison trials and find us at:

# DEFENDR®

## GENETIC TRAITS

The DefendR symbol indicates above industry average levels of genetic resistance to one or more of the most important canola yield reducing factors. It represents the strength of the breeding programs of our primary canola breeding partners and is a promise to you that you're purchasing a hybrid with exceptional yield potential and leading genetics for disease and/or harvest management.

## Performance in 2022 Trials

| Resistance Trait         | Minimum Resistance Level   | Hybrids   |  |
|--------------------------|--|---|--|
| <b>POD DEFENDR®</b>      | A dependable level of shatter tolerance well suited to straight-cut or delayed swathing harvest systems. Pod DefendR-rated hybrids score a minimum of 7.0 on the Canola Council of Canada's canola shatter rating scale.   | BY 7206LL<br>BY 7204LL<br>BY 7203LL<br>BY 7202LL              | BY 6223TF<br>BY 6217TF<br>BY 6211TF              |
| <b>BLACKLEG DEFENDR®</b> | Contains one or more major blackleg resistance genes that align with predominant blackleg race(s), combined with a strong R-rating for adult plant (quantitative) blackleg resistance.   | BY 7206LL<br>BY 7203LL<br>BY 6222TF<br>BY 6217TF              | BY 6216TF<br>BY 6214TF<br>BY 6211TF              |
| <b>CLUBROOT DEFENDR®</b> | Stacked 1st and next-generation clubroot resistance genes that protect against the prevalent pathotypes (3A, 3D, and 3H). Clubroot DefendR also protects against common (8E, 8N, 8P), and frequent (5C, 5G, 5L, 8A, and 8D) pathotypes, and against many other infrequent, rare, and new pathotypes. | BY 7206LL<br>BY 7204LL<br>BY 7203LL<br>BY 7202LL<br>BY 6223TF | BY 6222TF<br>BY 6217TF<br>BY 6216TF<br>BY 6214TF |

## DISTINCT BY DESIGN

At BrettYoung we are proud of the strategic partnerships we have with world-class organizations through which we source leading technologies and genetics. This allows us to bring **distinct** market choices that deliver you performance and value. **By design**, our success will always be rooted within your success. Like you, we are independent, resolute, and Distinct By Design.
