

AKRAS R2

The Standard in Pod Height

- Exceptional combination of yield, maturity and dependable performance
- Widely adapted to provide high yield potential throughout early and mid-season maturity zones
- Very high first pod

Features

Maturity	00.3 Relative Maturity 2375 CHU
Pod Height	9
Iron Deficiency Chlorosis	Tolerant
Phytophthora Root Rot	VG field resistance (Rps1k gene)
White Mould	8
Hilum	Imperfect black
Plant/canopy type	Semi-bushy
Plant height	Medium
Standability	9
Seedling vigour	8
Pubescence	Grey
Flower	Purple

Non-disease ratings: 9=Excellent 5=Average 1=Poor
White mould: Sclerotinia rot or white mould

SOYBEAN

Our Strategic Partner for Soybeans

The strategic partnership between BrettYoung and Elite® brings premium soybean varieties specifically suited to Western Canadian growing conditions.

Elite is a Canadian seed company that prides itself on delivering varieties tailored to the specific needs of farmers across Western Canada. Their unwavering commitment to early-maturing markets is demonstrated through continued investments in soybean production research, plant breeding and variety development. Elite early maturity soybeans are developed and evaluated at the Research Farm in Saint-Hyacinthe, Quebec, and at testing locations across Western Canada.

Elite has a full soybean development program dedicated to delivering soybeans with a maturity and performance profile to satisfy all Prairie soybean product areas. The expansion of Prairie acres has driven investment into crosses directed towards early zone adaptation, additional private testing, disease screening and more nursery selection plots. The inclusion of pod height and other key agronomic traits in their selection process is unique and has led to varieties with superior harvestability versus competing products.

When farmers choose Elite, they are choosing cutting-edge products and technology along with industry-leading expertise.

Distinct By Design

At BrettYoung, we strive to be a company like no other. We are proud of our strategic partnerships with world-class organizations through which we source leading technologies and genetics.

We succeed in our markets by bringing distinct choices that deliver performance and value. By design, our success is deeply rooted within your success; the two are intertwined and grow together. We are **Distinct By Design** and we wouldn't have it any other way.
