

Zipline ST

Zipline® ST is a dual-action soil surfactant blend. Specifically designed for turf care professionals, Zipline ST is a game-changing formulation engineered to improve water infiltration and deliver balanced hydration.

WHAT ZIPLINE DOES

- ✓ Promotes Balanced Hydration
- ✓ Delivers Consistent Results

TRIAL APPLICATIONS

During peak adverse conditions, Zipline ST was shown to dramatically improve turfgrass quality, stress tolerance, and provide increased protection against localized dry spot.

In other studies, Zipline ST has demonstrated excellent improvements in root mass and root development. Outstanding dew suppression has also been observed shortly after application.

July 10 (2 applications @ 21 days) 17 Days After Application

**Trials performed by Purdue University in July 2018.*
