EVERY NUTRIENT • EVERY GRANULE

## Homogeneous Tee & Fairway

### GENERAL INFORMATION

- **Tru-prill® 19-2-15** is a homogeneous fertilizer containing dual slow release nitrogen sources from Methylene Urea and Nature's Time, to provide a consistent feed at low rates over a 6-week period.
- **Tru-prill® 19-2-15** contains a complete formula of secondary and micro nutrients to address the deficiencies found in closely-mowed turf grass.
- **Tru-prill® 19-2-15** is a mini-grade homogeneous fertilizer for even distribution of nutrients at lower rates.

EVERY NUTRIENT • EVERY GRANULE

## Homogeneous Tee & Fairway

### FEATURES

#### Homogeneous Composition

#### Dispersion

#### Methylene Urea & Nature's Time

#### Key Secondary and Minor Elements

### BENEFITS

Even distribution of nutrients at low rates of application with minimal mower pick-up.

Tru-prill® granules begin to "melt" within minutes of irrigation for better nutrient dispersion, and less moxer pick-up.

Dual Slow release nitrogen package provides consistent nitrogen release in all growing conditions. Contains simple and complex carbohydrates that will further stimulate bacterial activity.

19-2-15 contains a high level of secondary and micro nutrients to address the deficiencies found in sand growing media.

### DIRECTIONS FOR USE

- Apply **Tru-prill® 19-2-25** any time when the turf needs fertilizer.
- Watering is recommended to assist in working the product into the turf.
- When applying to finely mowed turf, mow for one day without buckets to reduce mower pick up.
- Allow 5-7 days before seeing a visual response from the application.
- Use a clean dry spreader. Do not leave unused product in a spreader.

### STORAGE REQUIREMENTS:

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.
