

TurfRx™

Xtraction 0-0-5

powered by **Redox**
BIO-NUTRIENTS

GENERAL INFORMATION:

TurfRx™ Xtraction 0-0-5 is a liquid fertilizer formulation containing potassium, and humic acid. For use on turf fields and golf courses only.

APPLICATION GUIDELINES:

- Proper application rates and frequency should be determined by specific conditions and plant requirements.
- Always jar test before adding to a spray tank or injection.
- Spray and fertigation applications should be made with sufficient water, 50 mesh screens, and agitation throughout the application.
- This product may be tank mixed with pesticides. In some cases, tank mixing with pest control products can result in reduced pesticide efficacy or increased host crop injury. The user should contact the company responsible for the pest control product before applying any tank mix. A jar test is recommended before mixing with other fertilizers or pesticides.
- Poly in-line filters should be replaced with stainless steel, if possible.
- Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden.
- Always consult your county agronomist or professional agricultural consultant.
