★★★★★	Close Mowing	★★★★★	Summer Patch
★★★★★	Shade Tolerance	★★★★★	Dollar Spot
★★★★★	Low Fertility	★★★★★	Leaf Rust
★★★★★	Heat Tolerance	★★★★★	Leaf Spot
★★★★★	Turf Density	★★★★★	<i>Poa annua</i>

**NuGlade** is the first true fairway bluegrass, able to perform at close mowing down to 0.5" (12 mm) and in national tests, it excels at mowing heights below 1" (25 mm), sports field height of 1-2" (25-50 mm) and even at home lawn high mowing with no irrigation. Bring that golf course look to your lawn, park, or sports field with **NuGlade's** luxurious dark green color and ground-filling density that helps crowd out weeds.

**Solid Coverage:** According to unbiased test results, **NuGlade** is top rated for fall and spring density and ground cover, fall color and ground coverage, traffic and wear tolerance, Transition Zone endurance, fewest seedheads in the turf, and sod stretch resistance. Its dense nature fights encroachment of *Poa annua*.

**#1 in Low Input:** Univ. of Rhode Island trials showed that of all the Kentucky bluegrasses screened, "**NuGlade** was the top Kentucky bluegrass variety overall."

**Made for the Shade:** **NuGlade** breaks the rule that says dark green bluegrasses don't make it in the shade. At the University of Maryland dense shade trial, **NuGlade** ranked 8<sup>th</sup> out of over 100 contenders.

**Top Rated Disease Resistance:** In NTEP tests, **NuGlade** smoked the competition against summer patch, *Microdochium* pink snow mold, brown patch, stripe smut, necrotic ring spot, and anthracnose. **NuGlade** is one of Jacklin Seed's best against dollar spot.

**A Drought Survivor:** **NuGlade** ranks among the top 3 bluegrasses in drought (dormancy) tolerance, showing good wear resistance and only an average thatching tendency under tough conditions.

**Winter Hardy:** **NuGlade** tied for #1 for frost tolerance, and ranked favorably in winter color, and against *Typhula* gray snow mold.

**Seeding Rate:** 2-3 lbs./1000 ft<sup>2</sup> (10-15 g/m<sup>2</sup>) by itself or blended with other bluegrasses. Mix **NuGlade** with 20% ryegrass or 80% tall fescue.
