Forages

Stronghold is a high quality and high yield tap root alfalfa bred for winterhardness and longevity. It offers excellent winter survival while providing aggressive late season regrowth and an outstanding disease package that will guarantee stand survival. Stronghold was selected for its top quality, persistence and yield for the dairy or hay producer looking to solidify their forage production and win the yield battle.

Yield Performance

Stronghold combines great defenses and quality strategies to win the war on yield.

*Performance data from replicated trials in North America.
