

IGNITION

PERENNIAL RYEGRASS

Premium Turf Quality and Traffic Resilience

Ignition provides premium turf quality with a fine leaf texture and dark green color for an exceptional look. It excels under traffic stress, delivering top performance for sports fields and other high-traffic environments. Ignition was carefully selected for its disease resistance and ability to withstand challenging growing conditions, with strong resistance to grey leaf spot, stem rust, and leaf spot.

Key Characteristics

- Excellent turf quality
- Dark color
- Strong traffic tolerance
- Resistant to grey leaf spot
- Resistant to stem and crown rust

Mean Turfgrass Quality Rating of Perennial Ryegrass Cultivars
