

STORMCHASER

TALL FESCUE

Exceptional Turf Quality Meets Proven Drought Tolerance

Storm Chaser delivers outstanding performance under tough conditions, producing exceptional turf quality with strong resistance to gray leaf spot and brown patch. Qualified by the Turfgrass Water Conservation Alliance (TWCA), Storm Chaser is a proven low-water-use variety that requires significantly less water and recovers more quickly from drought than conventional tall fescue varieties. The result is a resilient, high-performing turf that maintains its quality even when water is limited.

Key Characteristics

- Solid turf quality
- Dark color
- TWCA Certified Drought Tolerance
- Resistant to grey leaf spot
- Resistant to brown patch

Mean Turfgrass Quality Rating of Tall Fescue Cultivars

NTEP 2018 - Tall Fescue Test

TURFGRASS QUALITY RATINGS 1-9 9=IDEAL TURF

NAME	MEAN
HOUNDOG NINE	6.1
HELICAT GLR	6.0
STORM CHASER	6.0
RAPTOR III	6.0
TALLADEGA II	6.0
MOONDANCE GLX	5.8

Mean Brown Patch Rating (Cool) of Tall Fescue Cultivars

NTEP 2018 - Tall Fescue Test

TURFGRASS QUALITY RATINGS 1-9 9=NO DISEASE

NAME	MEAN
STORM CHASER	8.0
MOONDANCE GLX	8.0
TALLADEGA II	7.9
HOUNDOG NINE	7.6
HELICAT GLR	7.6
RAPTOR III	7.4

Grey Leaf Spot Ratings of Tall Fescue Cultivars

NTEP 2018 - Tall Fescue Test

TURFGRASS QUALITY RATINGS 1-9 9=NO DISEASE

NAME	MEAN
STORM CHASER	7.7
TALLADEGA II	7.7
MOONDANCE GLX	7.5
HELICAT GLR	6.7
RAPTOR III	6.7
HOUNDOG NINE	6.5

Leaf Texture Ratings of Tall Fescue Cultivars

NTEP 2018 - Tall Fescue Test

LEAF TEXTURE RATINGS 1-9 9=VERY FINE

NAME	MEAN
HOUNDOG NINE	6.5
RAPTOR III	6.3
STORM CHASER	6.2
TALLADEGA II	6.1
HELICAT GLR	6.0
MOONDANCE GLX	6.0
